

Crystal Textures

Our Crystal Textures solutions offer a unique, differentiated and new look, which allows endless design possibilities.

Bringing together the sparkle and brilliance of our Crystals, into integrated harmonic designs they provide maximum customization flexibility, and highly personalized solutions that perfectly fit with our client needs in terms of design freedom, application differentiation and technological advancement.

These versatile products combine elegant crystals from Swarovski with different gluing systems, each optimized for certain carrier materials and fields of application. Swarovski Crystal Textures solutions are ideal for use in the textiles, interior design, jewelry, DIY, and accessories segments and offer numerous sparkling design possibilities.

Crystal Rocks, Crystal Fine Rocks and Crystal Ultrafine Rocks, are innovative and stunning design elements that showcase different sizes of double pointed chatons.

Crystal Fabric is another inventive product that consists of a carrier material that is completely covered with millions of tiny cut and uncut crystals.

Crystal Medley & Crystal Galuchat emulate naturally grown forms, adding a mysteriously organic effect to glamorous and progressive styles.

With the Graphic technology Crystal Fabric/Ultrafine Rocks/Fine Rocks/Rocks get transformed and any image turns into crystals, opening up a world of endless design possibilities.

While the Crystal Lacquerer foils transform any chosen Pantone color in a new sparkling color variant for our Crystal Fabric, Crystal Rocks and Crystal Medley families, they provide the best solution when looking for the perfect color match.

Crystaltex Chaton Bandings are available in a wide range of colors and effects, making them the perfect choice for creating a full spectrum of designs and exciting and luxurious statements for the fashion world.

Crystal Textures

AVAILABLE CRYSTAL TEXTURES PRODUCTS AND FIELDS OF APPLICATION

Crystal textures products offer a **unique, differentiated and new look**, which allows **endless design possibilities**.

Bringing together the sparkle and colors of Swarovski crystals, into integrated harmonic designs they provide **maximum customization flexibility**, and highly personalized solutions that perfectly fit with our client needs in terms of **design freedom, application differentiation and technological advancement**.

Different adhesive systems, already applied on the reverse side of the product, allow infinite application possibilities, optimized for each carrier material and field of application.

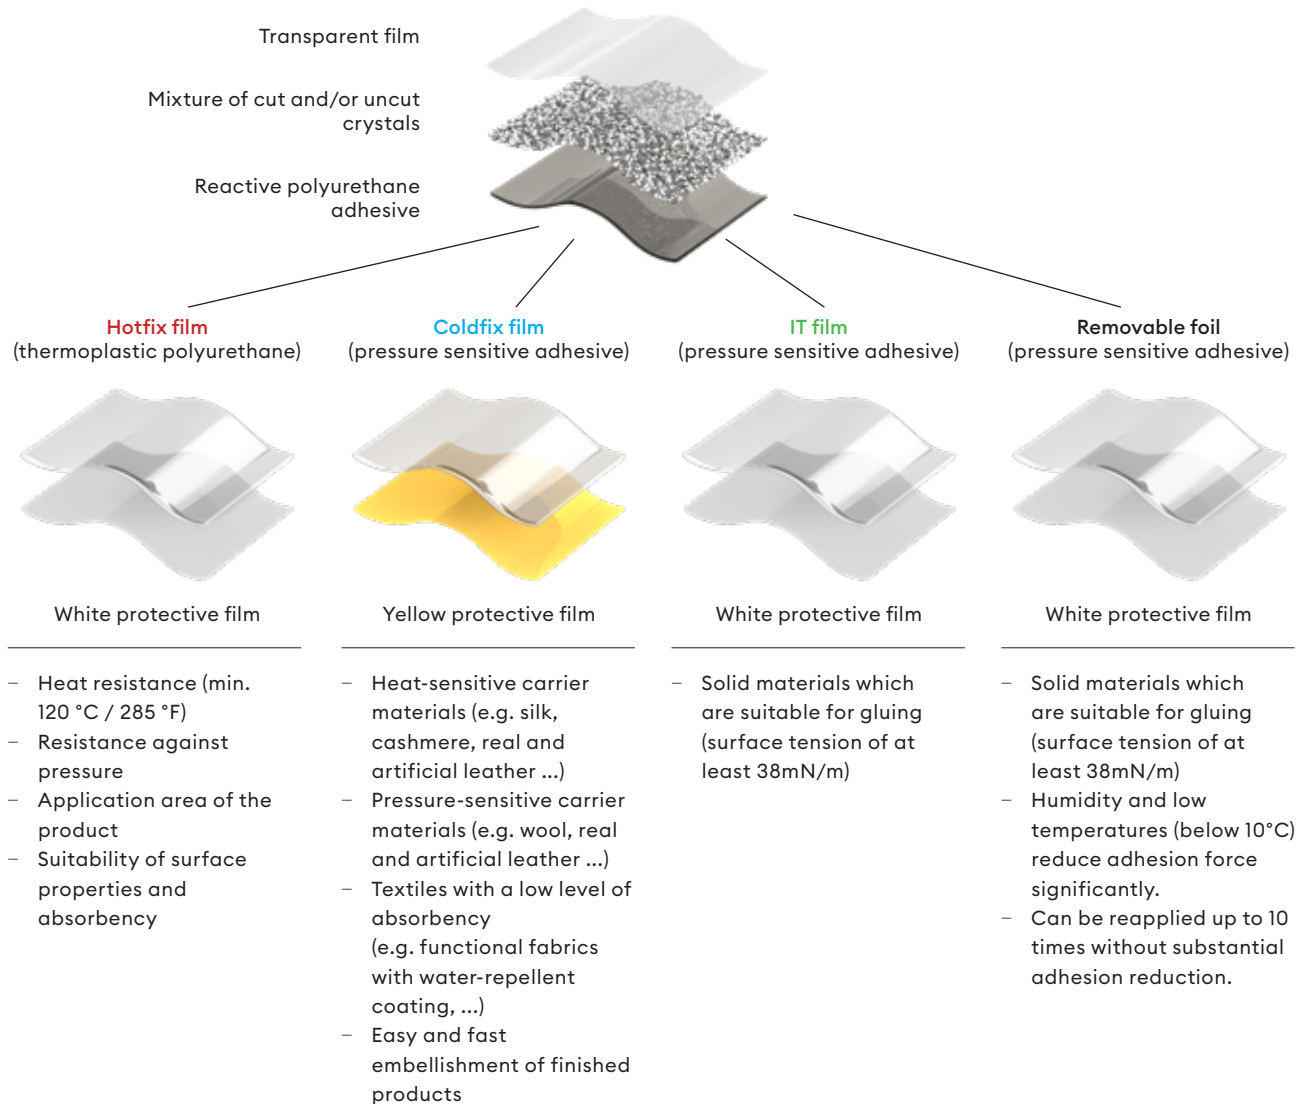

They are ideal for use in apparel and accessories segment, as well as in interior and tech segments.

Due to its outstanding bonding performance, Crystal textures products in **Hotfix** are perfect for a variety of textile applications with high performance requirements. Crystal textures products in **Coldfix** are developed especially for materials that are not suitable for Hotfix applications, such as real and artificial leather and functional fabrics.

Crystal Textures IT on the other hand, are ready to apply and perfect for solid materials such as paper, metal and glass, allowing easy and fast application.

Finally, **Removable foil** products, allow to apply and remove quickly the product onto solid surfaces such as metal, glass, plastic and artificial leather, for an effortless personalization.

Crystal Textures

Please keep in mind: Coldfix is not a replacement for our Hotfix products – it is a new alternative for difficult carrier materials that are incompatible with Hotfix products.

If Hotfix is applicable, we recommend using Hotfix technique as the achievable bonding strength is higher than applying a Coldfix product.

Before beginning the application process, you should always check whether the carrier material is suitable for application of Self-adhesive Elements.

There are different material checks necessary, depending if you want to apply a Crystal textures product in **Hotfix** or a Crystal texture product in **IT** or **Removable Foil** on a **solid material** or a **Coldfix** product onto a **textile** or **leather carrier material**.

Nevertheless, please note that there are certain types of plastics used for **solid materials, textile and leather treatments** that are difficult for any gluing connection.

The following table contains a selection of materials that can cause problems for any glue application:

Plastic	Examples	Adhesive Qualities
Polyamide (PA)	Degamid, Nylon, Perlon	very difficult
Polyethylene (PE)	Geberit, Hostalen G, Ferrozell	difficult
Polyethylene Terephthalate (PET)	Cardura, Atlas, Eralyt	difficult
Polyoxymethylene (POM)	Delrin, Kematal, Ertacetal	difficult
Polypropylene (PP)	Moplefan, Proplex, Verelite	difficult
Polytetrafluoroethylene (PTFE)	Teflon®, Gaflon, Ferrotron	very difficult
SILICONE	Silopren, Contiduct, Corotex	very difficult

To increase the bonding strength of a **Coldfix** product or **Removable Foil** product onto leather surfaces, experience shows that in some cases it could be helpful to clean the carrier material with isopropyl alcohol before applying

the **Coldfix** product. We strongly recommend carrying out test to check if the carrier material does not get effected/damaged due to the alcohol.

To ensure the best possible result, test applications on the intended carrier material are strongly recommended. For information especially regarding material limitations please refer to our Application Manual.

Crystal Fabric Bandings

CRYSTAL FABRIC

Crystal Fabric is the most flexible crystallization solution on the market, offering a highly desirable, yet discrete sparkle at an entry price level!

Crystal fabric adds a luxurious touch to any product within a wide variety of segments, for example textiles,

accessories, jewelry, eyewear, and watches. Depending on the color and surface of the carrier material, Crystal Fabric with transparent film changes its look dramatically. Crystal Fabric on a black film creates a deep, mysteriously soft gleam, dressed up with a very alluring sparkle.

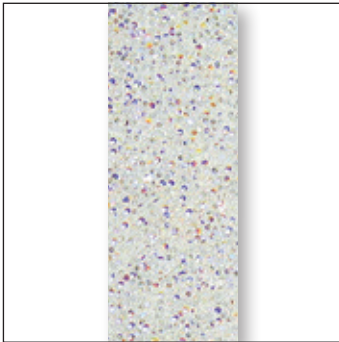

Key features:

- Most discrete sparkle for your products, featuring a combination of extremely small unfaceted crystals and full-faceted crystals
- Thinnest and lightest solution
- Best for delicate fabrics
- Great for detailed graphic prints
- Possibility to create sharp edges for your design with the Unlimited option
- Perfect color match with the Crystal Lacquerer foils

The Crystal Lacquered foils combine the crystal shine of our Crystal Textures with customizable lacquer colors, opening up a new world of endless color possibilities. Transforming any chosen Pantone color in a new sparkling color variant for our Crystal Fabric, Crystal Rocks and Crystal Medley families, they provide the best solution when looking for the perfect color match. They are ideal for monochromatic motives with lower tolerances, improved color quality and maximum customization flexibility.

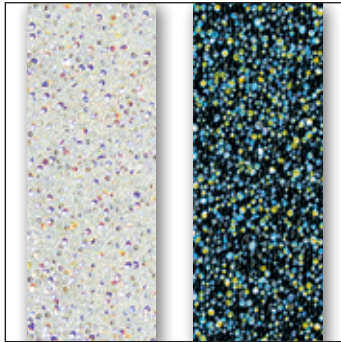

Standard colors are ready for reference. Customization possibilities are available through an inquiry to our Special motif service or through our Customer Service.

Please be aware that this unique technology cannot be combined with XS, Unlimited or Foil Overlay.

* Coldfix and Removable foil only available for motifs
 ** Crystal Metallic Sunshine (001 METSH) is not suitable for swimwear because effect 001 METSH is highly sensitive to seawater, sweat, and chlorine.
¹ These colors and effects are available only for motifs, not bandings.

SPECIAL MOTIF SERVICE

A special motif is any individual design created by the customer that differs to the Crystal Fabric Standard, Crystal Inspiration, or Special Collections. This service opens up an abundance of customization possibilities and enables you to profit from Swarovski's long-standing experience and design expertise. A range of customization options for existing motifs is available (see "Customization Possibilities" below).

Customization Possibilities for Crystal Fabric

- Max. motif size: 600x1800 mm
 - Min. motif size: of 10x10 mm or effective surface of 1 cm²
 - Min. width of gaps within motifs: 3 mm
- Min. Crystal Fabric surface: 3 mm
 - Min. size of the smallest element within a motif: 10x10 mm or effective area of 1 cm²

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif applies to (Crystal Fabric). You will then receive a quotation including

You can also submit design sketches that meet your special requirements, such as a brand image or an image for a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

Please Note

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If sending a sewing pattern, please include the whole pattern and not just sections. When the sketch is submitted as a hard copy by fax or email, please include a scale legend (e.g. copy/scan with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

It is generally possible to draw motifs with a minimum gap of 3 mm between the outlines. However, due to the tolerance level of the crystals being applied onto carrier film, the final Crystal Fabric motifs may differ from the sketches or prints in relation to the motifs'

outline, especially with spaces that are smaller than 3 mm. Therefore the motif, and by extension, the product itself, may be subject to individual variations with each reproduction. These variations are caused by technical production-related factors. As these variations are not deemed to be defects, warranty claims are excluded and Swarovski assumes no liability whatsoever in connection with them.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note that ordering of a design does not grant exclusive production of this design to the customer.

If detailed information on possible tolerances is required (e.g. cavity production for metal parts), please contact your local Swarovski sales office who will enter an application request into our application database.

Crystal Rocks

Synonym for luxury, this super dense crystallization option, uses only double pointed chatons in order to offer the most luxurious sparkle available in the market. Three different levels of refinement guarantee a perfect match to any style you desire with Rocks, Fine Rocks and Ultra Fine Rocks.

The surface and edges of Crystal Rocks are smooth, which offers a whole new range of application possibilities.

Crystal Rocks not only creates unique effects on accessories and jewelry, but also enhances textiles in an innovative way.

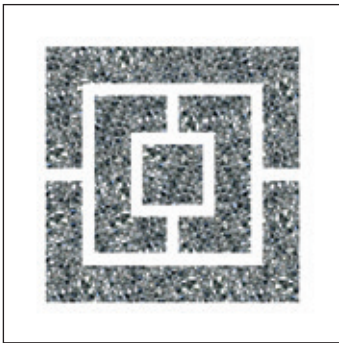

Key features:

- Modern look
- The ultimate crystallization, adding the most sparkle to any product
- Super luxurious - exclusively made with full-faceted crystals

- Adding a superior price premium to any product
- Possibility to create Graphic prints
- Perfect color match with the Crystal Lacquerer foils

SPECIAL MOTIF SERVICE

A special motif is a design created by the customer that differs to the Crystal Rocks Standard Collection. This service opens up an abundance of customization possibilities and enables you to profit from Swarovski's long-standing experience and design expertise. A range of customization options for existing motifs is available (see "Customization Possibilities" below). You can also

submit design sketches that meet your special needs, such as a brand image or an image to suit a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

Customization Possibilities for Crystal Rocks

- Min. size: 15x15 mm or effective surface of 2.25 cm²
- Max. size: 400x330 mm
- Min. Crystal Rocks surface: 9 mm
- Min. width of gaps within motifs: 3 mm

- Min. size of smallest element within a motif: 15x15 mm or effective area of 2.25 cm²

Due to production requirements, motifs with edges and angles of less than 90° need to be rounded off. Tolerance value = 3 mm.

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif applies to (Crystal Rocks). You will then receive a quotation including

your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

Please Note

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If sending a sewing pattern, please include the whole pattern and not just sections. When the sketch is submitted as a hard copy by fax or email, please include a scale legend (e.g. copy/scan with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

It is generally possible to draw motifs with a minimum gap of 10 mm between the outlines. However, due to the tolerance level of the crystals being applied onto carrier film, the final Crystal Rocks motifs may differ from sketches

or prints in relation to the motifs' outline, especially with regards to spaces that are smaller than 10 mm. Therefore the motif, and by extension, the product itself, may be subject to individual variations with each reproduction. These variations are caused by technical production-related factors. As these variations are not deemed to be defects, warranty claims are excluded and Swarovski assumes no liability whatsoever in connection with them.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note ordering of a design does not grant exclusive production of this design to the customer.

If detailed information on the possible tolerances is required (e.g. cavity production for metal parts), please contact your local Swarovski sales office who will enter an application request into our application database.

Crystal Fine Rocks

Synonym for luxury, this super dense crystallization option, uses only double pointed chatons in order to offer the most luxurious sparkle available in the market. Three different levels of refinement guarantee a perfect match to any style you desire with Rocks, Fine Rocks and Ultra Fine Rocks.

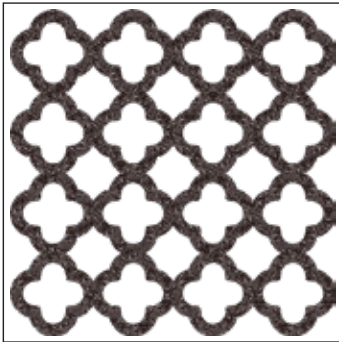

Fans of filigree designs will love Crystal Fine Rocks. Small, double-pointed Chatons create a refined surface structure and flexible texture that is thin and lightweight. Available in a wide selection, the washable Crystal Fine Rocks is set to become the star design element across all segments.

Key features:

- Modern look
- The ultimate crystallization, adding the most sparkle to any products
- Super luxurious – exclusively made with full-faceted crystals
- Adding a superior price premium to any product
- Express your creativity with the wide color assortment available
- Create tiniest designs, when space is critical with XS designs

The Crystal Lacquered foils combine the crystal shine of our Crystal Textures with customizable lacquer colors, opening up a new world of endless color possibilities. Transforming any chosen Pantone color in a new sparkling color variant for our Crystal Fabric, Crystal Rocks and Crystal Medley families, they provide the best solution when looking for the perfect color match. They are ideal for monochromatic motives with lower tolerances, improved color quality and maximum customization flexibility.

Standard colors are ready for reference. Customization possibilities are available through an inquiry to our Special motif service or through our Customer Service.

Please be aware that this unique technology cannot be combined with XS, Unlimited or Foil Overlay.

SPECIAL MOTIF SERVICE

A special motif is a design created by the customer that differs to the Crystal Fine Rocks Standard Collection. This service opens up an abundance of customization possibilities and enables you to profit from Swarovski's long-standing experience and design expertise. A range of customization options for existing motifs is available (see

"Customization Possibilities" below). You can also submit design sketches that meet your special needs, such as a brand image or an image for a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

Customization Possibilities for Crystal Fine Rocks

- Min. size: 15x15 mm or effective surface of 2.25 cm²
- Max. size: 400x330 mm
- Min. Crystal Fine Rocks surface: 4 mm¹
- Min. width of gaps within motifs: 3 mm
- Min. size of the smallest element within a motif: 15x15 mm or effective surface of 2.25 cm²

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif applies to (Crystal Fine Rocks). You will then receive a quotation

including your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

Please Note

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If sending a sewing pattern, please include the whole pattern and not just sections. When the sketch is submitted as a hard copy by fax or email, please include a scale legend (e.g. copy/scan with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

It is generally possible to draw motifs with a minimum gap of 10 mm between the outlines. However, due to the tolerance level of the crystals being applied onto carrier film, the final Crystal Fine Rocks Motifs may differ from sketches or prints in relation to the motifs' outline,

especially with regards to spaces that are smaller than 10 mm. Therefore the motif, and by extension, the product itself, may be subject to individual variations with each reproduction. These variations are caused by technical production-related factors. As these variations are not deemed to be defects, warranty claims are excluded and Swarovski assumes no liability whatsoever in connection with them.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note ordering of a design does not grant exclusive production of this design to the customer.

If detailed information on the possible tolerances is required (e.g. cavity production for metal parts), please contact your local Swarovski sales office who will enter an application request into our application database.

¹ Bandings (strips over 100mm in length) in 5mm widths cannot be produced.

Crystal Ultrafine Rocks

Synonym for luxury, this super dense crystallization option, uses only double pointed chatons in order to offer the most luxurious sparkle available in the market. Three different levels of refinement guarantee a perfect match to any style you desire with Rocks, Fine Rocks and Ultra Fine Rocks.

Small, double-pointed PP9 Chatons create a refined surface structure and flexible texture that is thin and lightweight. Available in a wide selection, Crystal Ultrafine Rocks is set to become the star design element across all segments.

Benefits:

- Modern look
- The ultimate crystallization, adding the most sparkle to any products
- Super luxurious – exclusively made with full-faceted crystals
- Adding a superior price premium to any product
- Express your creativity with the wide color assortment available
- Ultra-Fine-Rocks are the best solution for detailed graphic prints
- Create tiniest designs, when space is critical with XS motives
- Perfect color match with the Crystal Lacquerer foils

SPECIAL MOTIF SERVICE

A special motif is a design created by the customer that differs to the Crystal Ultrafine Rocks Standard Collection. This service opens up an abundance of customization possibilities and enables you to profit from Swarovski's long-standing experience and design expertise. A range of customization options for existing motifs is available (see

"Customization Possibilities" below). You can also submit design sketches that meet your special needs, such as a brand image or an image for a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

Customization Possibilities for Crystal Ultrafine Rocks

- Min. size: 15x15 mm or effective surface of 2.25cm²
- Max. size: 400x330 mm
- Min. Crystal Ultrafine Rocks surface: 3.4 mm
- Min. width of gaps within motifs: 3 mm

Due to production requirements, motifs with edges and angles of less than 90° need to be rounded off. Tolerance value = 1 mm (diameter Ø 2mm).

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif applies to (Crystal Ultrafine Rocks). You will then receive a quotation

including your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

Please Note

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If sending a sewing pattern, please include the whole pattern and not just sections. When the sketch is submitted as a hard copy by fax or email, please include a scale legend (e.g. copy/scan with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note ordering of a design does not grant exclusive production of this design to the customer.

If detailed information on the possible tolerances is required (e.g. cavity production for metal parts), please contact your local Swarovski sales office who will enter an application request into our application database.

For detailed application information, please refer to the Application Manual and our business website SWAROVSKI.COM/S-PROFESSIONALS or contact your Swarovski sales office.

Graphic - The Limitless Crystal Printing Technology

GRAPHIC FABRIC, ROCKS, FINE ROCKS, ULTRAFINE ROCKS, FINE ROCKS XS & ULTRAFINE ROCKS XS

Taking the word “image” from “imagination” and leading it to new creative heights, Swarovski presents a new graphic technology that opens up a world of design possibilities – in an unprecedented richness of detail!

The Graphic products allow for the printing of individual motifs – such as pictures, graphics, logos, or lettering – onto customer favorites Crystal Fabric, Crystal Rocks, Crystal Fine Rocks, and Crystal Ultrafine Rocks.

The three different printing methods (Foil Print)FP), Glass Print (GP) and combination of Foil & Glass Print (FP&GP), enrich your personal motif with a sparkling 3D surface for stunning effects in a series of application fields.

As a true highlight and stunning innovation in our assortment, the Graphic Fabric, Ultrafine Rocks, Fine Rocks, and Rocks speak to the rising demand for personalized design items, emphasizing our desire for an individual look in a world of mass production.

GRAPHIC OFFERS THREE BRILLIANT PRINTING TECHNIQUES FOR LIMITLESS CREATIVE POWER:

Foil Print (FP)

Printed directly on the foil, underneath the crystals.

Foil Print allows for optimal crystal brilliance. It is recommended for simple motifs and prints where blurred contours are a design element.

Glass Print (GP)

Printed directly onto the crystals, on the surface.

Glass Print ensures an incredibly precise reproduction of the desired motif, with a soft, matte effect.

It is recommended for complex motifs and prints.

Combination of Foil & Glass Print (FP&GP)

Printed onto both foil and crystals.

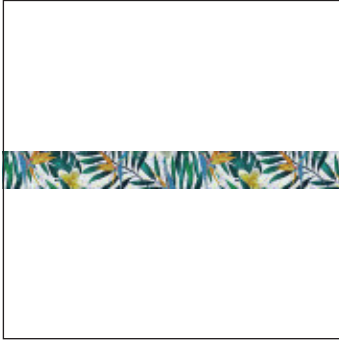

This unique printing technique ensures complete customization and design innovation, with stunning depth of detail.

When overlapped, prints merge to create an illusion of vibrant 3D texture.

GRAPHIC METALLIC COLORS

Combining our existing Graphic products (Crystal Fabric, Crystal Ultrafine Rocks, Crystal Fine Rocks, Crystal Rocks) in Comet Argent Light (001 CAL) with a special selected color tone to imitate any metallic look.

The Crystal Textures New Metallic Colors in Fabric, Rocks, Fine Rocks and Ultrafine Rocks (Hotfix and Coldfix) present an array of unprecedented vibrant styling options for apparel and accessories. With countless luxurious creative possibilities, these modern metallic hues turn simple designs into precious high-voltage pieces with a retro edge or even a revived 80s vibe. Perfectly suited for up-trending fashion and accessory styles, their energy and brilliance are unparalleled.

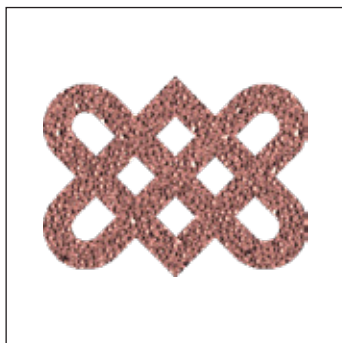

Metallic Colors are only possible with the effect Comet Argent Light (001 CAL) on transparent film color (010). Customer service will forward your request with the "Graphic inquiry form". Please make sure that all information is included in this form. The image data and also the system number will be created from the special design team.

Please be aware of the general product and color tolerances. Detailed information could be found in the "general product information".

Graphic - Metallic Colors

* Metallic colors are created combining our glass printing (GP) technology with Comet Argent Light crystals (CAL 001). This innovative technique allows any printed motif to be transformed into an extra-luxurious and precious piece.

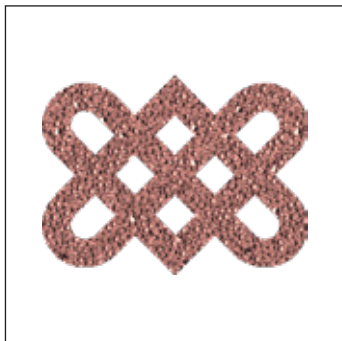

This technique is available for any color tone on Crystal Fabric, Crystal Rocks, Crystal Fine Rocks, Crystal Ultrafine Rocks, and for XS motives.

** Customer can chose their desired metallic color tone, any chosen style can be transformed into a vibrant metallic color. Please provide our special motif service the respective RGB or CMYK color tone to be transformed into a metallic color.

Information on Graphic

SPECIAL MOTIF SERVICE

A special motif is a design created by the customer that differs to the Graphic Fabric, Ultrafine Rocks, Fine Rocks & Rocks Standard Collection. This service opens up an abundance of customization possibilities and enables you to benefit from Swarovski's long-standing experience and design expertise. A range of customization options for existing motifs is available (see "Customization Possibilities" below).

You can also submit design sketches that meet your personal requirements, such as a brand image or an image for a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

Required information for Graphic Fabric, Ultrafine Rocks, Fine Rocks & Rocks and XS

data format contour/outline	vector graphics (.dxf, .ai, .eps, .dwg)
data format picture	raster image format (.tiff, .pdf, .psd, .png) / vector format (.ai, .eps, .pdf)
picture resolution & size	min. 300dpi (real size)
colors	RGB or CMYK
fonts	convert text to paths/outlines

Due to the different print methods (print on foil or glass), the colors may vary. Please be aware that possible color variations are more visible on single-color motifs than on images with many different colors. If you require

information and possible print tolerances (offset, color tolerance, etc.) please contact Swarovski and an application request will be entered into our application database.

11

Customization Possibilities for Graphic Fabric, Ultrafine Rocks, Fine Rocks & Rocks and XS

	GRAPHIC FABRIC	GRAPHIC ULTRAFINE ROCKS AND XS	GRAPHIC FINE ROCKS AND XS	GRAPHIC ROCKS
Max. motif size	400x330 mm	400x330 mm	400x330 mm	400x330 mm
Min. motif size	10x10 mm (or effective surface of 1 cm ²)	15x15 mm (or effective surface of 2.25 cm ² ; for XS 0.64 cm ²)	15x15 mm (or effective surface of 2.25 cm ² ; for XS 1.0 cm ²)	15x15 mm (or effective surface of 2.25 cm ²)
Min. width of gaps within motifs	3 mm	3 mm	3 mm	3 mm
Min. product surface	3 mm	3.4 mm	4 mm	9 mm
Min. size of the smallest element within a motif	10x10 mm (or effective surface of 1 cm ²)	15x15 mm (or effective surface of 2.25 cm ² ; for XS 0.64 cm ²)	15x15 mm (or effective surface of 2.25 cm ² ; for XS 1.0 cm ²)	15x15 mm (or effective surface of 2.25 cm ²)

Due to production requirements, motifs with edges and angles of less than 90° need to be rounded off.

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif applies to (Graphic Fabric, Ultrafine Rocks, Fine Rocks & Rocks).

You will then receive a quotation including your article number, minimum order quantity, price, and the line

Important information

Please always submit the drawing of your desired motif in the actual size you require. When enlarged to the desired size, a small sketch will have blurred lines that will make it difficult to correctly reproduce. Full-scale pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If sending a sewing pattern, please include the whole pattern and not just sections. If the sketch is submitted as a hard copy by fax or email, please include a scale legend (e.g. copy/scan with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

Due to the tolerance level of the crystals being applied onto carrier film, the final Graphic Fabric, Ultrafine Rocks, Fine Rocks, and Rocks motifs may slightly differ from the sketches or prints in relation to the motifs' outline. Therefore the product may be subject to individual variations with each reproduction. These variations are caused by technical production-related factors. As these variations are not deemed to be defects, warranty

claims are excluded and Swarovski assumes no liability whatsoever in connection with them.

drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes are required.

Your special motif will be produced and delivered following your confirmation.

claims are excluded and Swarovski assumes no liability whatsoever in connection with them.

If detailed information on possible tolerances (e.g. cavity production for metal parts) and print tolerances is required (offset, color tolerance, etc.), please contact Swarovski and an application request will be placed in our application database.

If considered feasible, special productions are generally offered to all our customers. Please note: special productions are subject to acceptance by Swarovski and ordering a design does not automatically grant exclusive production of this design for the customer.

For detailed application information, please refer to the Application Manual or contact your Swarovski sales office.

Please take care with deep-colored fabrics and artificial leather (e.g. denim and alcantara). Some fabrics may bleed after application or washing. If detailed information is required (product information), please contact Swarovski, who will enter an application request into our application database.

INTO THE WILD WITH THE SWAROVSKI EXOTICS COLLECTION

Elegant and ethical, the SWAROVSKI EXOTICS collection presents a reimagining of Crystal Textures in a sparkling safari of animal prints.

In a world where conscious luxury is essential, where animal skins are no longer desirable or considered to be symbols of prestige, SWAROVSKI EXOTICS provides an enlightened choice. It offers our clients new possibilities for exclusive and unique creative expression, and a further way to elevate their products.

The Swarovski Limitless Crystal Printing Technology is an exclusive and intelligent printing technique, capable

of printing on the crystal, underneath the crystal, or a combination of both. This ensures complete customization and design innovation, merging crystals, colors, effects and multi-directional prints to create an illusion of mesmerizing 3D texture.

The result of 125 years of expertise and advanced crystal technology, combined with a love of innovation and artistry, the SWAROVSKI EXOTICS Collection is an unparalleled creative alternative to leather embossment, animal and reptile skins.

Crystal Galuchat

Crystal Galuchat with its natural irregularity emulates earth grown forms, adding a mysteriously organic effect to glamorous and progressive styles.

Tactility continues to be a core topic for design as people seek a sense of re-engagement in an overly

digitalized world. The ethereal beauty and haptic nature of the incomparable Crystal Galuchat reconnects our sense of touch whilst offering a glimpse of mystery and otherworldly magic.

Key features:

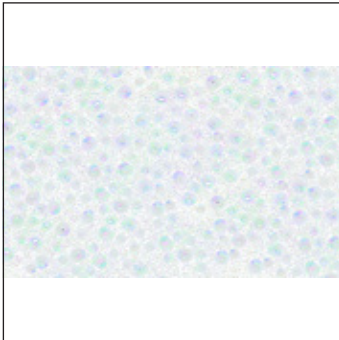

- Glamorous sparkle, featuring a mixture of Crystal Fabric and larger unfaceted crystals
- Add a wildly, irregular three dimensional look to any product
- Smooth feeling, inspired by the sting ray, resembling animal's skin

- An extraordinary tactile experience, that invites to touch
- High differentiation potential: no comparable product on the market

SPECIAL MOTIF SERVICE

A special motif is a design created by the customer that differs to the Crystal Galuchat Standard Collection. This service opens up an abundance of customization possibilities and enables you to profit from Swarovski's long-standing experience and design expertise. A range of customization options for existing motifs is available (see

Customization Possibilities for Crystal Galuchat

- Min. size: 19x19 mm or effective surface of 3.61 cm²
- Max. size: 400x330 mm
- Min. Crystal Galuchat surface: 9 mm
- Min. width of gaps within motifs: 7x7 mm or effective surface of 0.49 cm²

Two-colored motifs

Customers are able to create a combination out of the Crystal Galuchat standard color assortment (e.g. large and small crystal balls in 001 AB and the round uncut elements in 001 CAL).

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif applies to (Crystal Galuchat). You will then receive a quotation including your

Please Note

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If sending a sewing pattern, please include the whole pattern and not just sections. When the sketch is submitted as a hard copy by fax or email, please include a scale legend (e.g. copy/scan with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

It is generally possible to draw motifs with a minimum gap of 10 mm between the outlines. However, due to the tolerance level of the crystals being applied onto carrier film, the final Crystal Galuchat motifs may differ from sketches or prints in relation to the motifs' outline,

“Customization Possibilities” below). You can also submit design sketches that meet your special needs, such as a brand image or an image for a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

- Min. gap between motif outlines: 6 mm
- Due to production process requirements, motifs with edges and angles of less than 90° need to be rounded off. Tolerance value = 1.5 mm.

It is not possible to mix three different colors - both crystal balls (3.5 and 2.5 mm) must be the same color.

article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

especially with regards to spaces that are smaller than 10 mm. Therefore the motif, and by extension, the product itself, may be subject to individual variations with each reproduction. These variations are caused by technical production-related factors. As these variations are not deemed to be defects, warranty claims are excluded and Swarovski assumes no liability whatsoever in connection with them.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note ordering of a design does not grant exclusive production of this design to the customer. If detailed information on the possible tolerances is required (e.g. cavity production for metal parts), please contact your local Swarovski sales office who will enter an application request into our application database.

Crystal Medley

A bold tactile experience generating an intriguingly rocky look with a subdued shimmer that brings to mind mysterious and ethereal magic. Crystal Medley’s design is all about touch, available in two options – Crystal Medley & Crystal Fine Medely.

Crystal Medley brings together a strong carrier material with a thrilling mix of different elements, including PP 14 and PP 29 double-pointed Chatons.

Key features:

- Eye-catching sparkle, featuring a mixture of extremely small unfaceted crystals and larger full-faceted crystals
- Adds a fascinating tactile experience to any product
- Cool edgy look, ideal for apparel and accessories
- Lightweight, yet tear resistant
- Perfect color match with the Crystal Lacquerer foils

Please see the respective product matrix for all available reference codes.

It is possible to order two-colored motifs: one color for both sizes of double-pointed Chaton (PP14 and PP29) and one color for the round uncut elements. It is not possible to mix three different colors – both double-pointed Chatons must be the same color.

You can choose from the Crystal Medley standard effects (see color matrix).

The Crystal Lacquered foils combine the crystal shine of our Crystal Textures with customizable lacquer colors, opening up a new world of endless color possibilities. Transforming any chosen Pantone color in a new sparkling color variant for our Crystal Fabric, Crystal Rocks and Crystal Medley families, they provide the best solution when looking for the perfect color match. They are ideal for monochromatic motives with lower tolerances, improved color quality and maximum customization flexibility.

Standard colors are ready for reference. Customization possibilities are available through an inquiry to our Special motif service or through our Customer Service.

Please be aware that this unique technology cannot be combined with XS, Unlimited or Foil Overlay.

SPECIAL MOTIF SERVICE

A special motif is a design created by the customer that differs to the Crystal Medley Standard Collection. This service opens up an abundance of customization possibilities and enables you to profit from Swarovski's long-standing experience and design expertise. A range of customization options for existing motifs is available (see

"Customization Possibilities" below). You can also submit design sketches that meet your special needs, such as a brand image or an image for a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

Customization Possibilities for Crystal Medley

- Min. size: 19x19 mm or effective surface of 3.61 cm²¹
- Max. size: 400x330 mm
- Min. Crystal Medley surface: 9 mm
- Min. width of gaps within motifs: 7x7mm or effective surface of 0.49 cm²

- Min. gap between motif outlines: 6 mm
- Due to production requirements, motifs with edges and angles of less than 90° need to be rounded off. Tolerance value = 1.5 mm.

Two-colored motifs

Customers are able to create a combination from out of the Crystal Medley standard color assortment (e.g. large

double-pointed Chatons and small double-pointed Chatons in 001 AB and the round uncut elements in 001 CAL).

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product group your special motif applies to (Crystal Medley). You will then receive a quotation including your

article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

Please Note

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If sending a sewing pattern, please include the whole pattern and not just sections. When the sketch is submitted as a hard copy by fax or email, please include a scale legend (e.g. copy/scan with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

It is generally possible to draw motifs with a minimum gap of 10 mm between the outlines. However, due to the tolerance level of the crystals being applied onto carrier film, the final Crystal Medley motifs may differ from sketches or prints in relation to the motifs' outline, especially with regards to spaces that are smaller than 10 mm. Therefore the motif, and by extension, the product

itself, may be subject to individual variations with each reproduction. These variations are caused by technical production-related factors. As these variations are not deemed to be defects, warranty claims are excluded and Swarovski assumes no liability whatsoever in connection with them.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note ordering of a design does not grant exclusive production of this design to the customer.

If detailed information on the possible tolerances is required (e.g. cavity production for metal parts), please contact your local Swarovski sales office who will enter an application request into our application database.

For detailed application information, please refer to the Application Manual and our business website SWAROVSKI.COM/S-PROFESSIONALS or contact your Swarovski sales office.

¹ Min. size 17x17 mm (or effective surface of 2.89cm²) is possible for customized motifs. Please note: with this reduced minimum size, we cannot guarantee that there will be at least one PP 29 double-pointed Chaton on every motif.

Crystal Fine Medley

A bold tactile experience generating an intriguingly rocky look with a subdued shimmer that brings to mind mysterious and ethereal magic. Crystal Medley's design is all about touch, available in two options - Crystal Medley & Crystal Fine Medley.

Inspired by a lunar landscape. Small crystal balls combined with bicone chatons (pp14) create an irregular 3D surface with a smooth feel, which comes in a wide selection of colors. Two-color motifs are also available to order.

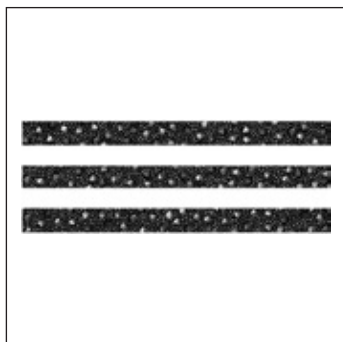

Key features:

- Eye-catching sparkle, featuring a mixture of extremely small un-faceted crystals and larger full-faceted crystals
- Adds a fascinating tactile experience to any product
- Cool edgy look, ideal for apparel & accessories
- Lightweight, yet tear resistant
- Perfect color match with the Crystal Lacquerer foils

CRYSTAL TEXTURES EXTRA SMALL (XS)

Crystal Fine Rocks XS & Crystal Ultrafine Rocks XS

Fans of filigree designs will love the extra small Crystal Fine Rocks and Crystal Ultrafine Rocks. Small, double-pointed Chatons create a refined surface structure and flexible texture that is thin and lightweight.

Now it is possible to order these products smaller than the current minimum size.

Available colors according to the Fine Rocks and Ultra Fine rocks portfolio.

Standard (Crystal Fine Rocks & Crystal Ultrafine Rocks)

SPECIAL MOTIF SERVICE

A special motif is a design created by the customer that differs to the Crystal Textures Standard Collection. This service opens up an abundance of customization possibilities and enables you to profit from Swarovski's long-standing experience and design

expertise. A range of customization options for existing motifs is available (see "Customization Possibilities" below). You can also submit design sketches that meet your special needs, such as a brand image or an image for a particular sales campaign. This will

then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

Customization Possibilities for the respective product groups	Ultrafine Rocks	Fine Rocks
Min. surface (width)	3.4 mm	4.0 mm
Min. size or effective surface:	8x8 mm (0.64 cm ²)	10x10 mm (1.00 cm ²)
Max. size:	400x330 mm	
Min. width of gaps within motifs:	3.0 mm	3.0 mm
Edges & angles less than =/< 90° need to be rounded off [diameter]	2.0 mm	2.7 mm

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product

group your special motif applies to. You will then receive a quotation including your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please

contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

Please Note

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If sending a sewing pattern, please include the whole pattern and not just sections. When the sketch is submitted as a hard copy by fax or email, please include a scale legend (e.g. copy/scan

with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

It is generally possible to draw motifs with a minimum gap between the outlines. However, due to the tolerance level of the crystals being applied onto carrier film, the final Crystal Textures motifs may differ from the sketches or prints in relation to the motifs' outline. Therefore the motif, and by extension, the product itself, may be subject to individual variations with each reproduction. These variations are caused by technical production-related factors. As these variations are not deemed to be defects, warranty

claims are excluded and Swarovski assumes no liability whatsoever in connection with them.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note that ordering of a design does not grant exclusive production of this design to the customer. If detailed information on possible tolerances is required (e.g. cavity production for metal parts), please contact your local Swarovski sales office who will enter an application request into our application database.

CRYSTAL TEXTURES UNLIMITED

Crystal Fabric UL, Crystal Medley UL, Crystal Fine Medley UL, Crystal Galuchat UL

Crystal Textures Unlimited (UL) is the crystal solution that offers a totally new and sophisticated look.

Due to a new production technology it is possible to create more precise designs with sharper edges and a more luxurious look.

This will lead to fewer gaps and will perfectly fit when inserting into cavities.

Additional rework is not necessary, which therefore saves time.

Unlimited (UL) will be offered for:

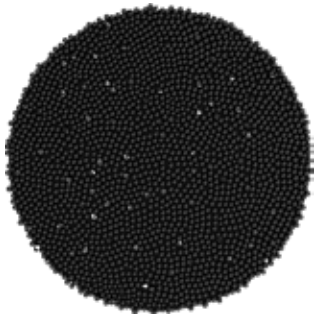

- Crystal Fabric UL
- Crystal Medley UL
- Crystal Fine Medley UL
- Crystal Galuchat UL

And could be ordered in following application versions:

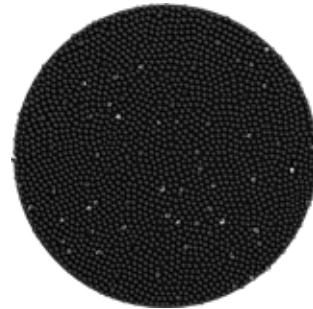

- Hotfix
- Self-Adhesive (IT)*
- Coldfix (C)

Please note that the Unlimited (UL) technique is only available for motifs (no bandings) and could not combined with Graphic prints.

Standard Crystal Fabric

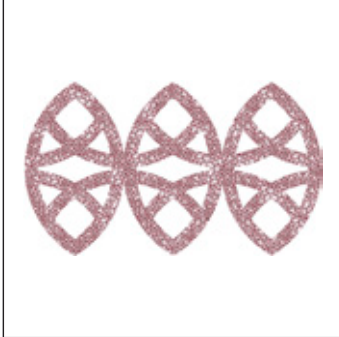

Crystal Fabric Unlimited (UL)

* IT is only available for Crystal Fabric UL and Crystal Fine Medley UL

SPECIAL MOTIF SERVICE

A special motif is a design created by the customer that differs to the Crystal Textures Standard Collection. This service opens up an abundance of customization possibilities and enables you to profit from Swarovski's long-standing experience and design

expertise. A range of customization options for existing motifs is available (see "Customization Possibilities" below). You can also submit design sketches that meet your special needs, such as a brand image or an image for a particular sales campaign. This will

then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

Customization Possibilities for the respective product groups	Fabric	Galuchat	Medley	Fine Medley
Min. surface (width)	3.0 mm	9.0 mm	9.0 mm	7.0 mm
Min. size or effective surface:	10x10 mm (1.0 cm ²)	19x19 mm (3.61 cm ²)	19x19 mm (3.61 cm ²)	15x15 mm (2.25 cm ²)
Max. size:	400x330 mm			
Min. width of gaps within motifs:	3.0 mm	6.0 mm	6.0 mm	6.0 mm
Edges & angles less than =/< 90° need to be rounded off [diameter]	1.5 mm	1.5 mm	1.5 mm	1.5 mm

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product

group your special motif applies to. You will then receive a quotation including your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please

contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

Please Note

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If sending a sewing pattern, please include the whole pattern and not just sections. When the sketch is submitted as a hard copy by fax or email, please include a scale legend (e.g. copy/scan

with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

It is generally possible to draw motifs with a minimum gap between the outlines. However, due to the tolerance level of the crystals being applied onto carrier film, the final Crystal Textures motifs may differ from the sketches or prints in relation to the motifs' outline. Therefore the motif, and by extension, the product itself, may be subject to individual variations with each reproduction. These variations are caused by technical production-related factors. As these variations are not deemed to be defects, warranty

claims are excluded and Swarovski assumes no liability whatsoever in connection with them.

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note that ordering of a design does not grant exclusive production of this design to the customer. If detailed information on possible tolerances is required (e.g. cavity production for metal parts), please contact your local Swarovski sales office who will enter an application request into our application database.

FOIL OVERLAY FOR CRYSTAL FABRIC, CRYSTAL ROCKS, CRYSTAL FINE ROCKS, CRYSTAL ULTRAFINE ROCKS, CRYSTAL GALUCHAT, CRYSTAL MEDLEY & CRYSTAL FINE MEDLEY

The fashion-forward Crystal Textures Foil Overlay is heaven-sent as it offers new fabrications in fantastic shapes to usher in a new era of “Tectility” inspired designs.

This new “foil overlay” technology is a forward integration that opens totally new ways in terms of flexibility and use of – until now – impossible materials.

With the overlay, it is now possible to sew or glue the motifs onto tricky materials, e.g. leather. It is perfectly possible to create one flat surface while integrating the products into the standard production process.

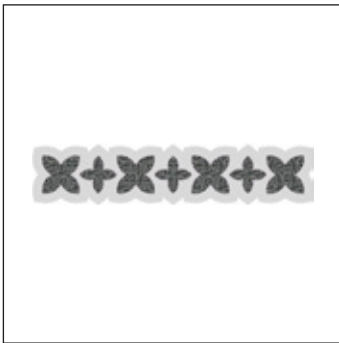

Foil overlay will be offered for Crystal Fabric, Crystal Rocks, Crystal Fine Rocks, Crystal Ultrafine Rocks, Crystal

Galuchat, Crystal Medley and Crystal Fine Medley.

Please note that the Foil Overlay technique is only available for motifs (no bandings) and only for the Hotfix version (not available for Coldfix and IT).

SPECIAL MOTIF SERVICE

A special motif is any individual design created by the customer that differs to the Crystal Textures Standard, Crystal Inspiration, or Special Collections. This service opens up an abundance of customization possibilities and enables you to profit from Swarovski’s

long-standing experience and design expertise. A range of customization options for existing motifs is available (see “Customization Possibilities” below). You can also submit design sketches that meet your special requirements,

such as a brand image or an image for a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which means that adjustments can be made easily according to your needs.

Customization Possibilities for the respective product groups	Fabric	Ultrafine Rocks	Fine Rocks	Rocks	Galuchat	Medley	Fine Medley
Min. surface (width)	3.0 mm	3.4 mm	4.0 mm	9.0 mm	9.0 mm	9.0 mm	7.0 mm
Min. size or effective surface:	10x10 mm (1.0 cm ²)	15x15 mm (2.25 cm ²)	15x15 mm (2.25 cm ²)	15x15 mm (2.25 cm ²)	19x19 mm (3.61 cm ²)	19x19 mm (3.61 cm ²)	15x15 mm (2.25 cm ²)
Max. size:	400x330 mm						
Min. width of gaps within motifs:	3.0 mm	3.0 mm	3.0 mm	3.0 mm	6.0 mm	6.0 mm	6.0 mm
Edges & angles less than =/< 90° need to be rounded off [diameter]	1.5 mm	2.0 mm	2.7 mm	3.0 mm	1.5 mm	1.5 mm	1.5 mm

Customization Possibilities for Foil Overlay

Foil overlay min./max. surface (width) outside	min. 3 mm / max. 50 mm						
Foil overlay min./max. in between of crystals surfaces (inside)	min. 3 mm / max. 50 mm						
Foil overlay min. surface	0.3 cm ² (3x10 mm)	0.45 cm ² (3x15 mm)	0.45 cm ² (3x15 mm)	0.45 cm ² (3x15 mm)	0.57 cm ² (3x19 mm)	0.57 cm ² (3x19 mm)	0.45 cm ² (3x15 mm)
Foil overlay motif outline: edges & angles less than =/< 90° need to be rounded off [diameter]	2.0 mm						

Ordering Process

Send your request with the drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements for the desired motif. Please also indicate which product

group your special motif applies to. You will then receive a quotation including your article number, minimum order quantity, price, and the line drawing of your special motif in PDF

format. Please contact your Swarovski sales office again if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

Please Note

Please always submit the drawing of your desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reproduce. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP, or DXF format will ensure that we have clear data to work with. These can also be sent via email or on CD-ROM. If sending a sewing pattern, please include the whole pattern and not just sections. When the sketch is submitted as a hard copy by fax or email, please include a scale legend (e.g. copy/scan

with a ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

It is generally possible to draw motifs with a minimum gap between the outlines. However, due to the tolerance level of the crystals being applied onto carrier film, the final Crystal Textures motifs may differ from the sketches or prints in relation to the motifs' outline. Therefore the motif, and by extension, the product itself, may be subject to individual variations with each reproduction. These variations are caused by technical production-related factors. As these variations are not deemed to be defects, warranty

claims are excluded and Swarovski assumes no liability whatsoever in connection with them.

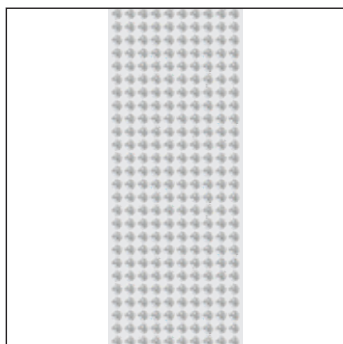

Special productions are generally offered to all our customers if these are deemed to be feasible and comply with our General Terms and Conditions. Please note that ordering of a design does not grant exclusive production of this design to the customer. If detailed information on possible tolerances is required (e.g. cavity production for metal parts), please contact your local Swarovski sales office who will enter an application request into our application database.
