arditi
LIGHTING INNOVATION

DESCRIPTION

Led dimmer with switch and cursor for dimmable LED modules. With LFP electronic protection for the end of life of the bulb. Maximum 4 modules connected. For round or flat hose cables. Saves memory of the last regulation status. UL. and ENEC certified .
The LFP (Load Fallilure Protection) electronic protection consists of special built-in electronics that perform a double function:
1)In the hypothetical case that at the end of the module's life, it were short-circuited, an overload would occur and then the dimmer would be protected and would stop working, but simply by disconnecting from the network and reconnecting the dimmer it would be back operational. Dimmers that do not have this special electronics are protected and disconnected in case of overload but do not work again.
2) The possibility of setting the minimum regulation desired. This allows you to regulate a higher minimum level if the module flashes and thus prevent the module from flashing. The instructions that accompany the product indicate how to adjust the minimum configuration.

PRICE

Lot	P.V.P. excluding VAT
1	25,23€
5	22,92€
10	20,84€
40	19,86€

Dimmer Led for modules 1012/AS ML LFP SW1 100-240V Black

TECHNICAL SPECIFICATIONS

SYMBOLS

Weight: 97 Grams

CERTIFICADOS

Packging: Box 40 Units

NOTES

For dimmable LED modules with network voltage. Maximum 4 modules connected. Power 4 to 25W

OTHER FEATURES

High (mm): 29

Colour: Black

Frecuency (Hz): 50~60

Room Temperature (°C): +35

Diameter (mm): 100

Voltage In (Vac): 100~240

Power (W): 4~25

Life (Hours): 40000
